

ABEL GASHAW AYELE

SOFTWARE ENGINEER

CONTACT INFORMATION

 MALE

 03/10/1998

 abelgashaw700@gmail.com

 +251933559460

 Addis Abeba, Ethiopia

SKILLS

Language:

English, Amharic

Computer:

- **Operating System:** Windows(7,8,10,11)
- MS office: Word, Excel, PowerPoint
- **Database Management System:** MongoDB and MySQL
- Computer Networking And Installation
- Software testing and debugging
- Programming Language: HTML, CSS, JavaScript

OBJECTIVE

A curious learner and excellent team player searching for a challenging position as a Software Engineer. To utilize my technical competencies, working knowledge of software development, troubleshooting and networking services and excellent communication skills to grow as a Software Engineer.

ADDITIONAL INFORMATION

EDUCATION

2018 - 2021

JIGJIGA UNIVERSITY, Software Engineering

BSC. degree in Software Engineering from Jigjiga University on July 23, 2021. GC. and, I have graduated from institute of technology with the GPA of 3.38

WORK EXPERIENCE

2020 - 2021

JIGJIGA UNIVERSITY, Project name: Addis car rental system

I was a practically experienced during my Final Year Software Project at Jigjiga University in car rental system project.

OCT 2022 - APR 2023

TECH PLUS SOLUTION, Network Engineer

Assisted in the installation, configuration, and maintenance of network systems for various clients, ensuring optimal performance and security.

Collaborated with senior network engineers to design and implement local area networks (LANs), wide area networks (WANs). Conducted site surveys to assess client needs and recommend appropriate network solutions, including hardware and software requirements.

Installed rack systems, switches, and patch panels, ensuring proper organization and connectivity for network infrastructure

This experience has equipped me with hands-on skills in network installation, including the setup of rack systems, switches, and patch panels, and a strong understanding of network infrastructure, preparing me for more advanced roles in the field.

JUNE 2023 - NOW

SHEMU GROUPS, Software Engineer

During my tenure as a Software Engineer, I had the opportunity to work on several impactful web development projects, including the Niber Foundation and Afrigeneral Trading websites.

My responsibilities included:

Full-Stack Development: Designed and developed user-friendly, responsive websites for both Niber Foundation and Afrigeneral Trading. Utilized HTML, CSS, JavaScript, and frameworks such as React and Angular to ensure a seamless user experience

Backend Development: Implemented robust backend solutions using Node.js and Express, enabling efficient data handling and processing. Developed RESTful APIs to facilitate communication between the frontend and backend systems.

Database Management: Managed databases using MongoDB and MySQL, ensuring data integrity and optimizing queries for performance. Participated in daily stand-ups, sprint planning, and code reviews, contributing to a culture of continuous improvement and knowledge sharing.

Additional to the web development i also worked on:

I am an extremely fit, energetic, dedicated, compassionself-motivated curious and I am always striving to improve myself.I believe that I will be suitable the challenge that new role has to offer.

Conducted comprehensive testing of the Kas ERP system, ensuring functionality and performance met organizational standards,executed test cases,

Encoded and maintained system data ensuring accuracy and integrity across the Green Tech Africa and Shemu websites. Utilized various tests and tools to enhance system functionality and user experience.

Provided technical support to end-users, troubleshooting issues related to the ERP system and websites.

Delivered training sessions and created documentation to empower users in navigating the systems effectively.

Collaborated with cross-functional teams to gather requirements and implement system enhancements, contributing to continuous improvement initiatives that increased operational efficiency.

Through these projects, I honed my technical skills and gained valuable experience in delivering high-quality web solutions that meet Company needs while adhering to industry best practices.
